`Node.js` `Git & Github` `Data Structures & Alogorithm` `Java` `C++` `OOPs` `HTML` `CSS`

PERSONAL PROJECTS

Hotstar Website (04/2023 - Present)
- Hotstar is a popular online streaming platform that provides users with access to a wide range of TV shows, movies, and sports events.
- As a web developer working on the Hotstar website, your role would involve designing and developing the website's user interface and implementing various features and functionalities to enhance the user experience.

Beats Landing Page (01/2023 - 02/2023)
- Beats landing page is a web page specifically designed to showcase and sell Beats by Dre headphones and accessories.
- Overall, the Beats landing page is designed to capture the attention of music enthusiasts and audiophiles who are looking for high-quality headphones and accessories that deliver superior sound quality and stylish design.

Real State (01/2023 - 02/2023)
- A real estate website is a platform designed to provide users with access to listings of properties for sale, rent or lease. It's an essential tool for anyone in the real estate industry, including real estate developers, agents, brokers, and property management companies.
- Overall, your role as a web developer for a real estate website is crucial to the success of the real estate business, as it helps to create an online presence that drives traffic, generates leads and ultimately converts visitors into customers.

Hospital Page (01/2023 - 02/2023)
- A hospital website is a platform designed to provide patients and their families with information about the hospital's services, facilities, and medical staff. As a web developer for a hospital website, your role would be to design and build a website that is easy to use, accessible, and provides a seamless user experience for visitors.
- Overall, your role as a web developer for a hospital website is essential to creating a positive online presence for the hospital, enhancing its reputation, and providing patients and their families with the information they need to make informed healthcare decisions.
